ENVIRONMENTAL POLICY

KHG-POL-HSE-1003

About this Policy

This Environmental Policy formalises our commitment to supporting the principles of environmental sustainability and recognises that a sustainable environment is central to our lives and our work.

KHG Contracting Pty Ltd is committed to managing its activities to promote environmental sustainability, conserve and enhance our natural resources, prevent environmental pollution and bring about continual improvement in our environmental performance.

The aim of this Environmental Policy is to integrate a philosophy of environmental sustainability into all of the organisation's activities and to establish and promote sound environmental practice in our operations. We will achieve this by the following Key commitments.

Key Commitments:

Compliance: Adhere with all relevant environmental legislation, regulations, and standards, aiming to exceed these requirements wherever possible.

Sustainable Resource Use: Enhance our use of natural resources by encouraging conservation, recycling, and sustainable procurement practices. We aim to reduce waste production through reduction, reuse, and recycling initiatives.

Energy Efficiency: Lower our carbon footprint by improving energy efficiency across our operations. We will review renewable energy sources and implement energy-saving measures wherever feasible.

Pollution Prevention: Prevent pollution by managing our operations to avoid contamination of air, water, and soil. We will apply best practices to reduce emissions, effluents, and discharges.

Ecosystem Conservation: Protect and enhance ecosystems by promoting conservation initiatives, restoring natural habitats, and ensuring that our activities do not harm local environments.

Sustainable Development: Incorporate environmental considerations into our planning and decision-making processes. We will prioritise projects and initiatives that support sustainable development and environmental protection.

Continuous Improvement: Establish and review environmental objectives and targets regularly. We will monitor our environmental performance and seek continuous improvement through innovation and best practices.

Employee Engagement: Educate and engage employees in environmental sustainability practices. We will provide education and resources to promote a culture of environmental responsibility.

Stakeholder Collaboration: Work collaboratively with stakeholders, including suppliers, customers, and the community, to promote environmental sustainability and share best practices.

Review and Communication

This policy will be reviewed annually to ensure its relevance and effectiveness. It will be communicated to all employees and made available to stakeholders.

Who this policy applies to:

This policy applies to all employees, contractors, and stakeholders involved in our operations, including all offices, facilities, and project sites.

Wui-Lee Tan
Executive General Manager
